The only point he could descend from was the Point, a flat and narrow ledge of rock, at the end of a chain of rocks called Eagle Point Rock, the bighest above the fall. Steve determined to make his leap from there, and picked out the spot below into which he meant to jump.

CHRIST AS WAGNER'S IDEAL.

& Sourch for the Highest Order of Musi Made the Composer a Christian.

At Dr. Heber Newton's church yesterday afternoon a lecture was delivered by Albert Ross Parsons, of Garden City, L. L., on "The Finding of Christ Through Art; or, Richard Wagner as a Theologian." The lecturer said that Wagner's studies, up to the age of thirty-five, had made him an infidel. After that age, in his such for a higher order of musical drama, he

search for a higher order of musical drams, he had found Christ, the finding of whom had made him a Christian.
Following his life to its vital union with Christianity, it was found that Wagner had reached it as did the Greeks, of whom he was an ardent student. Though his works savored of the mythical, yet it was in the high culture of mythology that lay the grand conception of true human sympathy which was the secret of the conquest by the Church of the great Eastern world. The theism of Christianity rose above that science which to the deism of Judaism and Univarianism is destruction.

that science which to the desism of Judaism and Unitarianism is desiruction.

The God of desism had been condemned by art. But that God who died on the cross presented to human conception that which must ever fill the heart with emotion. Music and Christianity were similar in that the spirit of both is love. The founder of the Christian religion was not wise. Wagner said; he was divine. He knew that by example only, by deeds of self-renunciation and salf-sacrifice, by presenting truths or ideas allegorically, as it were could the spirit be infused. In the humanitarianism of Christ Wagner had found in him the ideal. He loved that which was noble. To the hero and not the victor belorged the hence.

with the decoration."

The force of this denunciation is felt particularly by the Board of Aldermen, who had charge
of the decorations, and especially by the four
German-American members of the Board who
are thus criticised.

That this action of the German-American
Centennial Committee is not warranted by the
facts in the case is apparent from the testimeny

Mr. Koster said that the German coat-ofarms was one of the first to be placed on the

Mayor's Chief Clerk Crain said this morning
that he was positive that he had seen the German coat-of-arms among the decorations on the

ROCHEFORT UNDER BONDS.

The Police Court Sequel to His Encounter with M. Pilotel.

SEPROTAL CABLE TO THE EVENING WORLD, I LONDON, May 20. - The sequel to Henri Rochefort's amusing street encounter with M. Pilote occurred in the Vine Street Police Court this

morning.

Hochefort was arraigned before the magistrate and put under two bonds of £50 each to keep the peace for six months. He was also required to furnish surety in £100.

It is not believed that Pilotel will seek another meeting, as the sight of Rochefort's revolver, even though it was not taken out of its leather case, had a very subduing effect upon him.

ready for exhibition and may not be shown, it is said, until June 1.

Mayor Grant did not say that he would withhold his appointments until that time, but he did say when he arrived at the City Hall this morning that no Commissioners or Police Justices would be named to-day.

The Committee on Rumors nade another report on the situation to-day.

It was to the effect that Deputy Register James J. Martin who has been the most promising candidate for Police Commissioner in place of Stephen B. French, will resign his claims to the office in favor of his chief, Register Slevin.

This arrangement would make Mr. Martin Register, and the Tammany candidate for that office next Fall.

There is a minority report of the Committee, too, to the effect that Register Slevin has no show for appointment under Mayor Grant's administration, as he happened to be one of the ten members of the Tammany Hail Committee of twenty-four who wanted to run Judge Dugro for Mayor last year.

The report from this prolific Committee on Rumors to the effect that Stephen B. French is to be supplanted in the Police Board by a Tammany man, has been adopted by everybody but Mayor Grant.

French is said to be a strong candidate for Police Justice.

suit brought by Thomas Holmes, through his guardian, to recover \$30,000 damages for the loss of a leg.

Holmes, who is slightly demented, was the butt of ridicule among the boys around his home in Park avenue. Some few months ago he gave chase to his tormentors, and fell in front of one of the Deacon's cars on Park avenue.

The horses knocked him down, and the wheels of the car passed over his leg.

Amputation had to be resorted to.
In a previous suit the jury awarded the plaintiff \$15,000. The verdict was set aside and a second trial ordered.

On the second trial a disagreement followed.

This is the third time the case has been tried,

James Scott, a young colored man, is a boarder there.

The colored woman was in her own room yesterday morning when she called her white servant up from the kitchen.

As the white girl entered the colored woman's room she was greeted with four shots, fired at her by her colored mistress.

The bullets struck the wall near the door, and Annie ran downstairs and hid in the shed.

Patrolmen lieddy and Manning and Detective Holtic arrested the two women and Scott, who were in the house at the time.

In court this morning Mrs. Jenkins said at first she was shooting at cats.

This explanation did not satisfy the Judge, and the woman admitted that she meant to shoot her servant because the latter refused to do what she was told.

Mrs. Jenkins has made trouble before, the police say, and they claim she kept a disordely house. The white girl is known to them also, and she was sent to jall for thirty days on a charge of living in a disorderly house, while James Scott was held for further examination.

MURDERER MAXWELL'S FATHER.

He Still Believes His Son to Have Been

SPECIAL TO THE EVENING WORLD. Sr. Louis, May 20.—The Maxwell-Preller trunk mystery case is revived by a letter received by W. S. Barnett, foreman of the jury which convicted Maxwell of Preller's murder. The letter is from the father of Hugh Mottran Brooks, alias Walter H. the murderers of his boy. Mr. Brooks writes under date of Easter, 1889, and makes this introduction to his letter; and makes this introduction to his letters.

During the whole of Lent, but sepecially in Passiontide and Easter, my mind has dwelt very much en the

similar people.

The old man clings with pitiful persistence to
the belief that his son was innocent and was

Ayer's Pills, being mild, effective, and

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills. I deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carliale, Pa.

"I have been taking Ayer's Pills and using them in my family since 1857, and cheerfully recommend them to all in need of a safe but effectual cathartic."

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular action, so that now I am in excellent health."—S. L. Loughbridge, Bryan, Texas.

THE POSTAL TELEGRAPH COMPANY SUF-

pany, on the fifth floor of 5 and 7 Dey street, at 5 o'clock this morning and caused a lively fire in the City Department.

The hundred operators are usually employed in the room, but there were only six persons in it when the fire broke out.

The Company has a little fire department composed of its employees, and it got to work quickly with extinguishers and axes, but the fiames spread so rapidly that the City Fire Department had to be summoned.

About a dozen telegraphic instruments and the tables and chairs used by the operators, quite a large quantity of telegraphic blanks and messages that had been sent were either burned by fire or damaged by water.

The fire burned the floor and roof on the south end of the building, which is owned by A. Decar.

Water poured into the fifth floor by the firemen ran down on the floor below and did some damage to several tenants.

Twenty-five young lady operators were grouped in the hallway on the fifth floor of the main office at 187 Broadway this morning waiting for the workmen to set up new instruments and tables, make new connections with the myriad of broken wires and get things in order again in the damaged operating-room.

Manager Charles Shirley said that the fire would cause the delay of a few hours only, and would not interfere with the service of the United Fress Association or with out-of-town business.

The loss is estimated at \$3,000.

Marshall was in the habit of calling on his cousin, John Marshall, in Jersey City. He seemed particularly fond of his cousin's wife, and wanted her to elope with him.
Richard went to John Marshall's yesterday, He showed a revolver to Mrs. Marshall, and gave her the cheerful news that he was going to shoot her unless she would clope with him. He could not live without her, he said.
Mrs. Marshall's brother, John Hollow, ir., heard what was going on, and took the revolver away from Richard, who was arrested for threatening to shoot Mrs. Marshall and for carrying a concealed weapon.
In Court this morning Mrs. Marshall said Richard had often told her he could not live without her and had threatened several times to shoot her. cousin, John Marshall, in Jersey City. He
